

FAQs

Women
Build®

What is Women Build?

Women Build (WB) encourages women to make a difference by building homes and communities. Through WB, women learn construction skills, gain confidence at the build site and create hope. WB challenges women from all walks of life to come together to help eliminate poverty housing one home at a time.

What should I wear/bring?

Please wear long pants, work boots or heavy sneakers. If you have work gloves and a water bottle bring those too. All tools and building supplies will be provided. You will receive a HFHNS WB t-shirt at the site.

Where should I park?

This year, our work site is located at 5 Laurine Road, Danvers, MA. On site parking is extremely limited. If you require onsite parking, please contact us directly at 781-771-9363.

What will my day look like?

The work day begins at 8:30^{AM} (8:15^{AM} registration and light breakfast). Lunch will be provided at 11:30^{AM} and the work day will end around 3:00^{PM}.

Can I get a jump-start and improve my building skills before WB?

Lowe's offers "How-to" clinics for all HFHNS volunteers and their friends. You can hone your construction skills at the clinic and use those same skills on your own home improvement projects. Clinic dates will be announced on our website.

Is there a fee to participate in WB?

We suggest a donation of \$100 per person to cover the cost of building materials for Women Build. Because we are a nonprofit 501 (c)(3) corporation any donation that you do make in support of HFHNS, may be tax deductible.

How can I raise the suggested donation?

There are many creative ways to raise the suggested \$100 donation for WB, including sponsorships through family and friends (Power of Ten - find ten people willing to donate \$10), bake sales, car washes, road races to name a few.

How can my business/company support HFHNS and WB?

There are corporate sponsorship opportunities for special events and we schedule Team Build Days for corporations and small businesses throughout the year. More information is available on the HFHNS website <http://www.habitat-forhumanity-northshore.com> Please send an email or call to explore this possibility for your organization.
